

Battery Analyzer BT750

- (1) Suitable for 12/24V automotive batteries&12V battery
- (2) Optional languages: Chinese, Traditional Chinese,

Turkish, Korean, Dutch and so on.

- (3) OEM acceptable: Label, Model, Color, Logo, Package.

TYPICAL PROPERTIES

Functions:

- 1.Battery Test
- 2.System Test
 - | Starter Test
 - | Charging Test
 - | Alt.load
- 5.Monitor the status of the start system of the vehicle
- 6.Test the change of the voltage when start the vehicle
- 7.Supportable standards: 100-1700CCA,100-1000DIN,100-1000IEC,100-1700EN,JIS.

Features:

- 1.Quickly test the battery's main specifications: Internal Resistance, CCA, Voltage, Electric quantity, Life-span.
- 2.Various standards build-in.
- 3.Adopt conductance method to test: convenient and safe.
- 4.Clock inside.
- 5.Printer inside, can print out testing results anytime.

Specifications:

- Power supply : Powered by the battery being tested.
- Voltage range : 9-30V(DC)
- Working temperature : -18~50°C
- Dimension : 89X395X265mm
