

T806

Car Battery Analyzer T806

 จัดจำหน่ายโดย : บริษัท เอเวอร์เทค จำกัด
 TEL : (02)8702884-5, (02)4289793-5
 Email: sales@evertch.co.th
 www.evertch.co.th

FEATURES

- Quickly test the battery' s main specifications: Internal resistance, CCA, life status and so on.
- Different inner testing standards to test different kinds of battery
- Test the change of voltage when start the vehicle
- Monitor the working status of charging system
- No need to charge pass electricity battery before test
- Pass CE, FCC certification
- Adopt conductance method to test: safe,simple, and convenient
- No heat no sparks. It will not damage the equipment or the workman.
- The tool is suitable for 12V single battery or 12V Battery Charging System
- Can test battery standard:
100-1700CCA ; 100-1000DIN ; 100-1000IEC ; 100-1700EN ;
100-1700CCA; 100-1000DIN; 100-1000IEC;100-1700EN,JIS-Japan Battery
- Clock inside
- Printer inside, can print out testing results

English, French, German, Russian, Spanish, Dutch

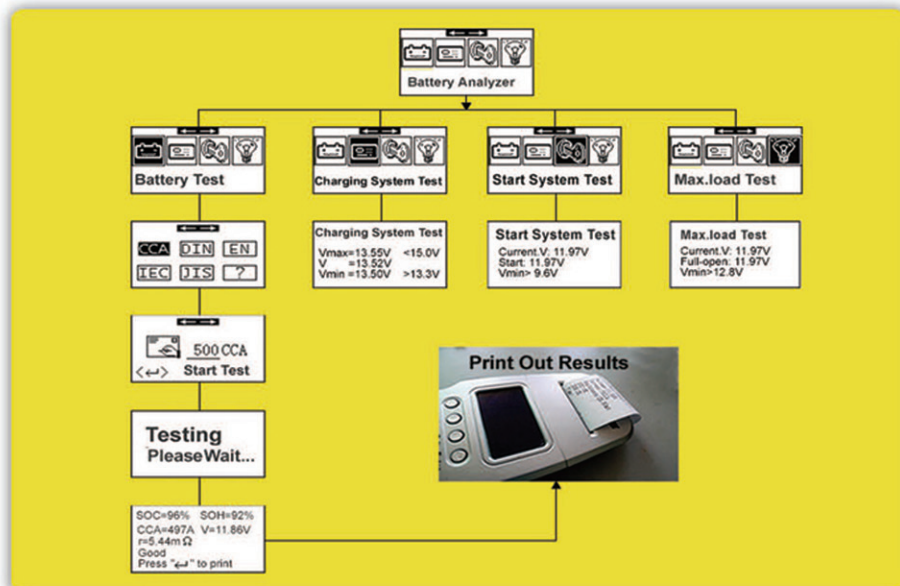

Package

SPECIFICATIONS

Power supply	Powered by the battery been tested	Working temperature	0°C ~ +40°C 0°C ~ +40°C
Voltage range	9-18V(DC)	Shell material	ABS ABS Plastic
Display	image and dot matrix LCD screen	Dimension	225mmX105mmX35mm 225mmX105mmX35mm
Contact choice	double conductor kelvin clip	Test accuracy for internal resistance	0-200mΩ 0-200mΩ

FUNCTION CHART

T806 Sample Report

* * Test report * *

Voltage:12.77V
Current:517CCA
Resistance:5.24mΩ
SOC:97%
SOH:59%
Status: Caution
Date:
2012/11/24
15:29:32

Start system test
Start voltage:8.92V
Status: Normal
Date:
2012/11/24
13:52:58

Charging system test

Voltage:14.12V
Status: Normal
Date:
2012/11/25
8:26:2

Max.load test
Max.load V:13.87V
Status: Normal
Date:
2012/11/25
8:33:8
